PROFESSIONAL SUMMARY

Results-driven Cybersecurity Professional and M.Sc. graduate specializing in SOC operations, web application penetration testing, and cyber threat intelligence. Proven experience designing automated security tools, leading hands-on training programs, and deploying industry-standard platforms including Splunk, Wazuh, and Burp Suite. Combines offensive security acumen with defensive monitoring depth to deliver proactive threat hunting, vulnerability management, and rapid incident response in dynamic enterprise environments

CORE COMPETENCIES & TECHNICAL SKILLS

Security Operations

SI/L2 Monitoring, SIEM (Splunk, Wazuh), Incident Response, Alert Triage, Log Analysis, Malware Analysis, Network Traffic Analysis, Cyber Threat Intelligence (CTI)

Offensive Security

Web Application Penetration Testing, Vulnerability Assessment, OWASP Top 10 (SQLi, XSS, CSRF, IDOR), Payload Testing, Post-Exploitation Techniques

Security Tools

Burp Suite, Wireshark, Nmap, Metasploit, OWASP ZAP, Splunk, Wazuh, Sysmon, Nessus, TheHive

Professional Skills

Cross-functional Collaboration, Analytical Problem-Solving, Technical Instruction & Mentoring, Rapid Tool Adoption

PROFESSIONAL EXPERIENCE

Cybersecurity Instructor

Mar 2025 – Present

XENCLAVIS

- Spearheaded design and delivery of scenario-based cybersecurity training curricula, emphasizing hands-on skill-building within live-environment lab simulations.
- Mentored cohorts through an intensive 10-session SOC internship program, bridging the gap between theoretical security concepts and real-world threat detection methodologies.
- Developed custom training modules covering SIEM operations, incident response workflows, and vulnerability assessment techniques.

Cybersecurity Intern

Jan 2026 – Apr 2026

ELEVATE LABS

- Executed comprehensive vulnerability assessments and implemented robust security controls to safeguard critical infrastructure and ensure data integrity.
- Monitored network systems in real-time, rapidly adapting to emerging threats and executing precision remediation strategies.
- Conducted phishing investigations and managed firewall/VPN configurations to optimize SOC monitoring protocols.

Web Application Penetration Testing Intern

Sep 2025

SECURIUM TECHNOLOGIES

- Performed rigorous web application penetration testing across multiple target environments, identifying critical security flaws including injection vulnerabilities and access control weaknesses.
- Delivered actionable, risk-prioritized remediation reports to development and security teams to accelerate vulnerability resolution.

Web Application Security Intern

Sep 2025

SKILL HORIZON (E-SKILLPRO PROGRAM)

- Mastered core web security architectures and applied offensive techniques to proactively identify, exploit, and mitigate advanced web-based vulnerabilities in controlled lab environments.
- Documented security findings and developed mitigation strategies aligned with OWASP Top 10 standards.

SOC & Incident Response Intern

May 2025 – Jun 2025

NULLCLASS EDTECH PRIVATE LIMITED

- Conducted real-time attack simulations to master SOC workflows, SIEM operations, and incident response protocols under active monitoring conditions.
- Managed automated alert triaging, risk scoring, and threat intelligence log analysis to significantly accelerate incident resolution times.
- Analyzed Indicators of Compromise (IOCs) and generated threat intelligence reports to support proactive defense posturing.

Web Security Intern

May 2024 – Jun 2024

CAPPRICIOSEC UNIVERSITY

- Analyzed Open Redirect, XSS, and IDOR vulnerabilities and applied secure coding practices to identify and mitigate risks.
- Developed a CLI tool for automated vulnerability detection, reducing manual assessment time and improving testing consistency.

TECHNICAL PROJECTS

Cyber Threat Intelligence (CTI) Dashboard | [Flask](#) / [Django](#) | [MongoDB](#) | [VirusTotal API](#) | [AbuseIPDB API](#)

- Engineered a real-time CTI dashboard aggregating global threat feeds to streamline SOC monitoring and threat verification workflows.
- Integrated VirusTotal and AbuseIPDB APIs for automated IOC lookups, threat scoring, and time-series data visualization with data export capabilities.
- Designed a modular backend architecture enabling scalable ingestion of multiple threat intelligence sources.

SecurImage Pro – Advanced Steganography Suite | [Python](#) | [PIL](#) | [stepic](#) | [Tkinter](#)

- Developed a secure Python-based steganography application that embeds AES-encrypted data within the Least Significant Bit (LSB) of PNG and BMP image formats.
- Designed a professional-grade drag-and-drop GUI supporting batch processing, data embedding, and extraction for operational security use cases.

Advanced Penetration Testing Framework | [Python](#) | [M.Sc. Final Year Project](#)

- Programmed a modular, Python-driven pentesting framework automating all phases of a security audit: scanning, exploitation, post-exploitation, and report generation.
- Framework reduced manual testing overhead and standardized reporting output for consistent, repeatable security assessments.

CERTIFICATIONS

- **Ethical Hacker and Penetration Tester** – Vulnerability assessment, exploitation, and post-exploitation strategies
- **Offensive Social Media and Mobile Hacker** – Identifying and mitigating threats targeting social platforms and mobile architecture
- **CyberOps Associate – Cisco** – Enterprise SOC operations, security monitoring, and incident response
- **SOC Analyst Learning Path** – Alert triage, SIEM/EDR tool operations, phishing and malware analysis, web attack detection, and standardized incident response playbooks

EDUCATION

Master of Science in Cyber Security

2023 – 2025

[AJK College of Arts and Science, Coimbatore](#) | CGPA: 8.5 / 10.0

LEADERSHIP

Student Council President

2024 – 2025

[AJK College of Arts and Science, Coimbatore](#)

- Led the student body organization, orchestrated campus-wide events, and collaborated with faculty to drive academic welfare initiatives.
